## What do past Collins Scholars say about the program?

*"I learned many things about the university I wouldn't have otherwise and got a better feel for the community and how it works. Every talk provided a different perspective."*

*"Being put in touch with a community of young faculty, and a larger community that values teaching. The weekly lunches were an important signal that the College values teaching, and a bit of a break from some of the isolation that can come with being a new faculty member."*

*"AE3 has given me angles to reflect on my teaching and evaluate it objectively so that I can actually improve and gauge student learning quickly and accurately."*

**WHAT'S  
NEXT?**

**Collins Scholar Weekly Sessions**  
Fridays, Noon-1:00 pm
